Good Things are Happening In the City Of Piedmont!!

To: Our Neighbors on: Stout Street:

We will begin repairing sections of your streets this week. We will start by grinding up the old asphalt paving, stabilizing the old road base then installing new asphalt paving. Your street will remain open during the majority of these repairs, but sections will be closed on the days we are installing base stabilization, applying road oil, or laying asphalt.

You will notice signs at the end of each block, signifying that we will be working on the street and that the street will be closed for part the day. Our normal work hours are from 7am- till 5pm. Monday thru Friday.
There are some occasions that we will work on Saturday to beat rain that maybe moving in or to make up rained out work days. Also please be very cautious of the large machinery while the road is under construction, and be aware that there may be delays getting in or out during certain phases of the construction.

Please don't allow children to play on or around the construction equipment after work hours.

Please keep your vehicles in your driveways and out of the roadway during this process.

Also be patient with our work crews, it's our goal to do good work as quickly as possible and to keep you informed along the way.

If you have questions or problems please give us a call.

Thanks for your cooperation!

Silver Star Construction Co.
