ODOT Resurfaces Piedmont Road Work to be Complete Before Wall Arrival

PIEDMONT – This week work began on resurfacing Piedmont Road from NW Expressway to Edmond Road. The \$913,000 project is funded by the Oklahoma Department of Transportation (ODOT).

According to construction documents the project includes resurfacing approximately 3.3 miles of four-lane roadway with an asphalt surface. The contract with Atlas Paving Company of Oklahoma City also requires the roadbed be milled which is a process of using the old road surface as a base material to strengthen and extend the life of the roadway.

“This is a long sought after project and the City is very pleased to see it happen,” Acting City Manager Clark Williams said.

Piedmont Mayor Mike Fina said that the construction will not interfere with upcoming city festivities during the 4th of July Weekend. “We worked closely with ODOT and Atlas Paving to ensure work would be complete before the arrival of the Dignity Memorial Vietnam Wall.” He further explained that officials with ODOT had originally offered to clean the streets for event slated for July 1-5. After reexamining the dates all parties were in agreement that work could be complete before the event.

“ODOT has been a tremendous partner and we greatly appreciate their cooperation and generous financial investment in our city,” Fina said.
