

As of right now, we have the following issues:

- 234<sup>th</sup> between Cemetery & Frisco remains closed.
- 234<sup>th</sup> between Piedmont & Cemetery is closed. We have significant collapse of part of the road at this location and it continues to get worse.
- Frisco Road between 234<sup>th</sup> & 206<sup>th</sup> is closed. The road is completely undermined just south of 234<sup>th</sup>.
- We have numerous homes without water in this area as well. Public Works believes the line servicing these homes has been washed out.

All road closures do have barricades in place and we have more barricades on the way.

We have several areas where there is significant damage to roads, but still structurally intact. These areas include but are not limited to:

- Sara Road just south of Waterloo.
- 220<sup>th</sup> between Piedmont and Mustang.
- Mustang between 220<sup>th</sup> and 206<sup>th</sup>.
- 206<sup>th</sup> just west of Sara.
- Edmond Road and Cemetery Road.
